

Assistant Swimming Teacher Training Programme SportsLink Swords Rd, Dublin 9

This training programme leads to a recognised qualification in the teaching of swimming. The Assistant or Level One qualification is the initial qualification in training to become a swimming teacher. This qualification in conjunction with teaching experience forms the basis for continuing on to the full teacher training qualification. The course will provide training to enable a successful candidate to teach beginners improvers and advanced swimmers, both adults and children.

It is certified by the Water Safety Ireland, and recognised by the Swimming Teacher Association (go to www.sta.co.uk for benefits of membership and insurance details). The International Federation of Swimming Teaching Associations has member organisations in many countries who recognise each organisation's qualifications (www.ifsta.co.uk).

- A layby scheme is available if required.

Please contact John Farrell if you have require further details.
